

## Land Confiscation (2025)

**52 km<sup>2</sup>**

of Palestinian land seized since **October 7, 2023** (including 46 km<sup>2</sup> in 2024), the highest in over 20 years. [As of March 2025]

In September 2025, Israeli authorities seized **≈ 0.46 km<sup>2</sup> of Palestinian land** in Jit, Far'ata (Qatilya), and Tell (Nablus), declaring it "state land."

**700,000+ Jewish Settlers**

live in more than 300 illegal settlements across the occupied West Bank, including East Jerusalem.

## Home Demolitions (2023 - sept 2025)

**4,231+**

structures were reduced to rubble in the West Bank, including East Jerusalem.

**8,204+**

Palestinians displaced due to these demolitions.

Since 2009,

**13,383+** total Palestinian structures demolished. This includes homes, commercial properties, and other buildings.

**21,388+** People displaced due to the demolitions.

## Palestinian Hostages (2025)

**19,000+** Palestinian hostages in Israeli custody, including **1,550 children**.

**2,662+**

from Gaza (classified as "unlawful combatants", actual number estimated to be higher). [September 2025]

**77+**

Palestinians died in Israeli captivity during the genocide, including **48 from Gaza**.

**360 children** held hostage, highest since 2016.

**147 out of 360 held under administrative detention** (no charge or trial).

**500 Palestinian children** hostage in military courts.

Israel is the only country to systematically do this.

"Prisoners" are those held by a legitimate authority. Per the 2024 ICJ advisory opinion, "The Israeli military is not a legitimate authority and of itself, which must be brought to an immediate, unconditional end." The Israeli occupation thus lacks any legitimate authority and must be regarded as a hostile force that takes Palestinian hostage as leverage over the Palestinian people.

# TWO YEARS of GENOCIDE

## Factsheet

(Oct 7, 2023 - Oct 3, 2025)

The Genocide in Context: Occupation and Apartheid Snapshot  
**2023 was already the deadliest year on record in the West Bank before October 7.**

**1,047**

Palestinians have been killed in the West Bank by Israeli forces and settlers [as of 1 Oct 2025].

In January 2025, **Israel launched the "Iron Wall" military operation, forcibly displacing 30,000 Palestinians** in the West Bank.

**757**

settler attacks on Palestinians and their property, a 13% increase compared to 2024 (in 2025 alone, [as of July 2025]).

**2,787+**

Palestinians injured by Israeli forces and settlers (Since January 2025).

# GAZA GENOCIDE

Death Toll (as of 1 October 2025)

Estimated range of total deaths:

The total genocide death toll is estimated between

**198,675–993,375** people.

This is equivalent to **8.64% - 43.19%** of Gaza's pre-genocide population of 2.3 million.

## How this estimate is calculated

Exact numbers are impossible due to collapsed infrastructure, mass graves, missing under rubble, and blocked access. This means we have no authoritative figure for total deaths.

Historically, most genocide victims are killed by indirect means, such as the destruction of healthcare, food distribution systems, and essential infrastructure. Based on recent conflicts, as cited in the Lancet letter, the total number of deaths can be estimated by using a multiplier **between 3 and 15** for the direct death toll.

## Minimum direct deaths

As of 1 October 2025, the Gaza Ministry of Health reports

**168,938+** Injured. **66,225+** Palestinians killed directly. **19,424+** Children killed directly.

► These are deaths that were recorded in hospitals or reported directly by families.  
► This figure does not include those under the rubble, in mass graves, or killed by indirect causes.

**On average, one child has been killed every 52 minutes.**

## Independent estimates

A forensic article by Dr. Richard Hill and Dr. Gideon Polya estimates the true death toll in Gaza at **680,000 by April 2025 (12–14 times higher than most reported figures).**

## Bombing & Destruction

- **100,000+ tons of bombs** dropped on Gaza, surpassing the combined bombings of Dresden, Hamburg, and London in WWII. [as of May 2025]
  - These bombs collectively **unleashed 7x the explosive force** of the Hiroshima nuclear bomb.
- The Israeli army is demolishing **~300 residential units daily** in Gaza City and Jabalia, using **unmanned robotic bulldozers**. [as of September 2025]
- **78% of Gaza's estimated 250,000 buildings** have been damaged or destroyed since the start of the genocide [as of 2 Oct 2025]
- **~61 million tonnes of rubble** [as of 2 Oct 2025] — a volume so vast it would take decades to remove under current conditions.
- **Over 93% of poultry farms are destroyed.** Remaining farms have ceased operation entirely.
  - *Thousands of acres of farmland have been bulldozed as part of a deliberate starvation policy, aligned with the UN definition of genocide.*

## Displacement

- **1.9 million people** forcibly displaced at least once since the start of the genocide, **some 10x or more.**
- As of July 2025,**
- Palestinians in Gaza are now confined to **less than 15% of the Strip**, amounting to no more than 55 km<sup>2</sup>.
  - Over 2.1 million Palestinians are packed into areas smaller than Guantanamo Bay per-person detention space.

## Healthcare Crisis

- **1,670 healthcare workers killed** as of Sept 2025.
  - **361 healthcare workers** have been taken hostage by Israel\*.
    - \*It is unclear if they are still being held hostage.
- **All 38 hospitals attacked; all 157 primary care centers attacked.**
  - 22 hospitals completely out of service, 16 are partially functional.

## As of 10 September 2025,

- **485,000 with mental health** conditions lost access to treatment (20,000 in urgent need).
- 62% of illnesses are **Acute Respiratory Infections** (driven by smoke & overcrowding).
- 37% of illnesses are **Acute Watery Diarrhea.**
- **150,000+ skin disease cases** (scabies, impetigo, etc. since Oct 2023).

## Journalists and Media

- **270+ journalists and media workers killed** in Gaza since October 7.
- The Gaza Genocide is the deadliest episode for journalists in all of recorded history. More journalists have been killed in Gaza than the US Civil War, WW1, WW2, the Korean War, Vietnam War, ex-Yugoslavia wars, and the US War on Afghanistan — all combined.

## Educational Impact

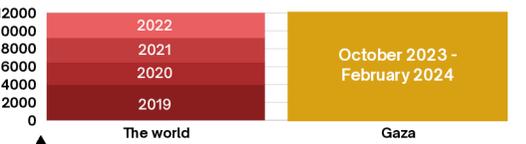

- **660,000+ students** have already lost 2 consecutive academic years, now in their third.
- **97% of educational facilities** in Gaza have been damaged by Israeli attacks.
  - ... with **91% requiring major rehabilitation or complete reconstruction** to be functional again. [July 2025]

## Families Erased

- **2,700 Palestinian families entirely wiped out by Israel** removing them from the civil registry by killing every single member during two years of genocide. [as of May 2025]

## Children

- As of 4 September 2025,**
- **Orphans:** 56,320
  - **Children injured:** 40,176
  - **Children deprived of education:** 914,102
  - **Children deprived of food:** 1,204,102
  - **Children needing medical evacuation abroad:** 4,912

▲ The number of children killed in Gaza in just 4 months **exceeded the total number of children killed in 4 years of all global conflicts combined.**

## Starvation

- As of September 2025,**
- **Severe food insecurity:** **198M people** (~94.3% of Gaza's current population of 2.1 million)
    - **641,000 at IPC Phase 5** – Catastrophe/Famine: starvation, destitution, death.
    - **1.14M at IPC Phase 4** – Emergency: extreme food gaps, high acute malnutrition.
    - **198,000 at IPC Phase 3** – Crisis: food consumption gaps, malnutrition rising.
  - **Deaths due to starvation: 440**
    - Including **147 children.**
  - **540 aid workers** killed since October 7, 2023.

*The IPC (Integrated Food Security Phase Classification) is the UN-backed scale for global famine monitoring. Phase 5 is the highest level; it means populations are already dying from hunger.*

## People missing or trapped under rubble

Estimating this is extremely difficult due to the collapse of infrastructure and lack of recovery equipment. Different estimates include:

**8,000–11,000 missing** mostly women and children (UN, 2025)

**13,000+ missing** under rubble or in mass graves (Euro-Med Human Rights Monitor, 2025)

**17,000–21,000 children missing** (Save the Children, 2025)

**1,964 Israelis killed\*** (as of April 2025)

*\*This includes deaths resulting from confrontations between Israel and Lebanese resistance fighters as well as Israelis killed by friendly fire or via Hannibal Directive*

**8,730+ injured** (as of March 2025)

## U.S. Military Aid to Israel Amid Genocide

Total Aid and Military Sales Since October 7, 2023: **at least**

**\$51.5 billion**

as of May 2025.

Annual Military Aid: Under a 10-year agreement (Oct. 2018–Sept. 2028), Israel receives **an annual minimum of**

**\$3.8 billion.**

**2 YEARS OF GENOCIDE. 77 YEARS OF NAKBA.**
